

**Call for Short-Term Scientific Missions**  
**Science and Technology Research in a Knowledge-based Economy**  
**STRIKE**  
**February 4, 2009**

STRIKE is a European-wide network of researchers interested in the economics of science and technology with participants from 23 countries. The network is funded by COST (www.cost.esf.org).

STRIKE facilitates the exchange of ideas at working group meetings, workshops/ conferences, training schools and through the short-term exchange of researchers (short-term scientific missions).

Participating researchers are invited to submit applications for short-term exchanges. Exchanges have a minimum duration of one week, a maximum duration of 3 months and need to take place before end of May 2009. Home and host institution should be participating in the network. The deadline for applications is February 28, 2009.

The application should provide the following information:

1) Work plan

Brief description of work to be carried out at host institution (research topic, possibly planning of joint research, learning about available data, meetings with other researchers). Include a statement of why it makes sense to do this work at the suggested institution. Indicate the working group to which your work fits best and describe how your work fits into the scientific programme of the network. The text should preferably not exceed 750 words.

2) Recommendations

A recommendation from the host and the home institution is required. A few lines in an email to Michele Cincera (mcincera@ulb.ac.be) are sufficient.

3) CV

A short CV should be provided.

4) Additional information

- Please state the amount of funding requested. The amount for accommodation and meals should be normally less than Euro 100 per day. For travel we can provide up to Euro 300. If travel costs are higher, a brief justification should be given. The total amount requested should not exceed Euro 2000.
- Indicate the planned dates and the length of the stay.
- State whether you are a PhD student, post-doc or senior researcher.

5) Registration

The application has to be registered in the online registration tool of the COST office (<http://www.cost.esf.org/stsm>). You need to select Action IS0604. The system will generate a formal registration document.

The application should be sent via email to Michele Cincera (mcincera@ulb.ac.be). The registration document should additionally be sent to the host institution. The applications will be evaluated by the core group of STRIKE. Decisions will be made by March 15, 2009.

Applications will be evaluated according to the following selection criteria:

1. Scientific quality
2. Recommendations
3. Fit with scientific programme
4. Priority to PhD students, post-docs, senior researchers in descending order
5. Priority for work with participating institutions
6. Regional balance

You can find the scientific programme of STRIKE on the homepage of the COST office ([http://www.cost.esf.org/index.php?id=233&action\\_number=IS0604](http://www.cost.esf.org/index.php?id=233&action_number=IS0604), download the Memorandum of Understanding) and the COST vademecum (<http://www.cost.esf.org/participate/guidelines>) for further details about guidelines for short-term scientific missions.

A short report on the visit is required within four weeks after the stay.

For any questions regarding the exchanges please contact Michele Cincera (mcincera@ulb.ac.be).

### Core group of STRIKE

Chair

Reinhilde Veugelers, KU Leuven, Belgium

Vice-chair

Elisabeth Müller, ZEW, Mannheim, Germany

Working group leaders

1) Science, technology and knowledge creation

Michele Cincera, Université Libre de Bruxelles, Belgium

Jacques Mairesse, CREST, Paris, France and UNU-MERIT, Maastricht, The Netherlands

2) Diffusion of science and technology

Patrick Llerena, Université Louis Pasteur and BETA, Strasbourg, France

3) Intellectual property rights

Dietmar Harhoff, Ludwig-Maximilians-University Munich and INNO-tec, Germany

4) Development of markets

Pierre Mohnen, UNU-MERIT, Maastricht, The Netherlands

Rachel Griffith, University College London and Institute for Fiscal Studies, UK
