Remark: This variable may not be coherent with the age of children according to other variables (HD...) or with the information contained in the R-file of the UDB. This is due to fact that the age of persons was calculated during data-processing (not using day and month of birth and interview, but survey year and year of birth) and the information in this variable is the answer at the time of the interview.

(a) In 1994, the size of local unit was collected only for persons working in the private sector (PE009). Starting 1995, the size of local unit was collected for persons working in the public sector as well. However, as most information on current job is collected only when a person changes job since the previous year, this variable is missing for most persons in the public sector.
(b) Size of organisation rather than size of local unit is given.

(a1) 1994: Old-age pension supplementary schemes (second pillar) - public and private : All attributed to 'contracted out schemes' [P01222 and P01225]
(b) Ireland: Wave 1994 and wave 1995: Occupational retirement pensions and occupational survivors pensions (linked to the former occupation of a deceased spouse) can not be distinguished and are both included in 'Old-age pensions basic schemes' (Wave 1994: P01225 and wave 1995: P02247).

- Retirement Pension from your own or your spouse's former employment in the Civil Service or other Irish State employment
- Retirement pension from your own or your spouse's former employment in semi-state or privte company in Ireland?
- State, military or private pension from abroad

In wave 1995 the following question was added, but still it is not possible to distinguish clearly. J.69: Is this pension in respect of your own former employment or in respect of your spouse's former employment? (1) Resp's own former employment, (2) Spouse's former employment, (3) Both
(c) For means-tested welfare schemes, the amount has not been collected. It has only been asked whether this benefit has been received (Yes - No). Amounts have been imputed by Eurostat.
